Tuition: \$25 each session

Experience creating with acrylics and collage

I would like to invite you into my art studio to work with me and explore the many facets of painting, acrylics, mixed media and collage allowing freedom of expression. I will take you along this wide-spanned path to finding your “own inspired art.”

Find your Inner-Child using acrylic to express your ideas Experience the fun and freedom using this medium. We will work the basics and continue weekly in an Open Studio = come as you can, but with RSVP letting me know in advance, so you are certain to have a working space available to you. I will critique your artwork in every session. This is an essential learning tool. Through the application of acrylic paint and composition suggestions, you will be able to transform your works to new and exciting statements.

Picasso: All children are artists. The problem is how to remain an artist once he grows up.”

We will work with still life, photos or your imagination. Later I will lead you into Abstraction. You will learn to mix colors to achieve unique hues. We will work on creating a collage adding acrylics following Robert Rauschenberg and “Combined Paintings.”

All are welcome. Beginners and advanced. We all learn from each other.

"For over 30 years Christina has been a part of the professional European and the United States art scene, winning many awards and participated annually in solo and collective art shows."
